Evaluation - 30th NINAETC Workshops

9. Reinforcing connecting with the participant on a more intimate level.

2. Most of the workshop time was spent by sharing information. The presenter was unable to focus on the topic and complete the presentation. The nice thing is that the presenter will e-mail the presentation.
3. Most of the workshop time devoted to introductions about 10-5 minutes was devoted to workshop. This is too much time for introductions!

5. Need more information.
6. Needed more time!
7. Needed to shorten introduction by participants so there would be enough time to complete presentation.
8. Excellent on having the audience state problems with clients and programs.
9. I liked hearing the ideas from others that they have used with their clients.
10. Spent one hour on participant introductions. No time for topic and information sharing.
11. Too much time spent on introductions and talking about your individual problems. This leaves very little time to address the solutions.
12. Workshop started late and the introductions took up too much time.
13. Need more time allowed for the workshop.
14. Again, this presenter cost too much time with introductions. I think a name, title and organization would suffice. The workshop didn't get started until 11:49 a.m. and began when? Then we rushed. Her program probably has a lot of money to do what they do.

2. Interaction with presenters and audience.
3. Doing hands-on assessments.
4. Good assessment materials.
5. Discussion about the interest determination, exploration and assessment system.
6. Just not what I thought it was going to be. I thought we were going to interpret results so we took our assessment ahead of time and I guess I'm disappointed. Would have liked help with further interpretation and how to use it better. Did like the learning style assessment we will use in the future. I would have liked more of this type of training.
7. Too broad that I would have wanted more specific information on assessment we use. Also, I felt California clients would have benefited more from this session.

Comments:

1. Need to understand more on assessments.
2. It was difficult to understand what the real purpose of this workshop was or are they promoting their school? Most grantees are using other assessments or the same that are not quite as complex. It was hard to determine ultimate assessment.
3. Would've been nice to take a sample tool of their assessment to compare to what we use.
4. Very interesting workshop!
5. Didn't meet our needs for the clients.

3. Speaker's style is monotonous.
4. I've taken this a few times and every time it's great.
5. Fully informative.
6. Good job!
7. Awesome. It would be great to have a follow-up session from this individual.

5. Good job!
6. I thought it was to be a presentation on how to work with youth. It seemed as though it was a sales pitch for their program.
7. The forms that staff had developed are great. If WIA organizations had more money we would be able to send clients to youth camp.
