NINAETC 2020 ANNOUNCEMENT

On behalf of the Executive Committee, we intend to inform you on the status of the hotel and the concern about the spread of viruses. It is unfortunate that some of you became ill at the recent training.

The safety and wellbeing of our grantees and guests is of utmost importance to us. We assure you that the Crowne Plaza Hotel maintains a superior standard of cleanliness within the hotel and is taking additional precautionary measures. The hotel sanitizes all areas with proper cleaning supplies to eliminate and stop the spread of germs. The hotel utilizes touchless soap, water, paper towel and commodes in all public restrooms. In addition, the hotel will be placing hand sanitizer dispensers as needed to help alleviate the spread of germs. As of today, the hotel has been conducting business as usual. We have included a copy of the cleaning and disinfecting guidelines provided by the hotel.

We are going to have an excellent training event with high quality speakers and a great time; this will be an event to remember. At this time, we have enjoyed an excellent response from the grantee community and the main hotel is booked to capacity.

We thank you for your involvement and continued participation in this National event and we hope to see you in Rhode Island.

Respectfully,

NINAETC 2020 Executive Committee
